- The monthly repayment amount is calculated as $(\text{Principal Amount} + \text{Interest charge}) / \text{Tenure in months}$. The interest charged is the reducing rate of interest and accordingly at any given month the portion of the monthly repayment amount applied towards interest is determined by multiplying the reducing interest rate with the principal outstanding after the deduction of the previous month repayment amount. In other words, the reducing rate of interest is the rate which when charged brings the outstanding principal to zero at the end of the tenor, where the interest charged is calculated on a reducing principal balance.
- The monthly repayment schedule will begin from the SBI Cardholder next billing statement and continue over the tenure period chosen for the Offer.

- The Minimum Amount Due (MAD) will be 5% of the SBI Cardholders existing revolving balances (Retail/Cash/Balance Transfer) and the monthly repayment amount due under the Offer (or all monthly repayment amounts due in case of multiple Offers).
