SBI Card looks to grow at 40% in FY19

CREDIT CARD PLAYER SBI Card is looking to continue growing at a 40% CAGR in the current financial year on rise in card issuance and total spends, a top company official said on Wednesday. As of February, the company's cardholder base stood at close to six million. "We have been growing at a CAGR of 40%. This growth is far ahead of the industry, which is growing at 20-25%. We would like to continue to grow at a 40% CAGR," said Hardayal Prasad, managing director and chief executive officer, SBI Card.
